ERUPTION ON WRIST SPREAD TO ELBOW

Child's Arms Itched, Could Not Sleep. Grew Worse. Cuticura Soap and Ointment Completely Healed.

R. F. D. No. 2, West Burke, Vt.—"My little daughter's trouble began on her wrists and I thought it was chapped by playing out of doors. It spread on her arms half way to the elbow and her little arms itched so she would rub them until they would bleed. Her arms were red and rough and as they grew worse I used to have to get up with her nights for they itched so she could not sleep. I had to keep her arms bandaged for about two months. They would look as if they were raw at times and she would rub them nights until they would bleed. "I used some ointment but it would not cure her so I sent for a sample of Cuticura Soap and Ointment. I washed her arms with the Cuticura Soap then put the Cuticura Ointment on and bandaged them. The second time I used them I could see a change so we bought a box of Cuticura Ointment and some Cuticura Soap. We had only used about half of them when she was completely healed." (Signed) Mrs. Lilla Beane, Jan. 31, 1914.

Samples Free by Mail

It is so easy to get rid of skin troubles by using Cuticura Soap exclusively and a little Cuticura Ointment occasionally that it is a pity not to do so in all cases of pimples, redness, roughness, itching and irritations. A single set is often sufficient when all else fails. Although Cuticura Soap (25c.) and Cuticura Ointment (50c.) are sold by druggists and dealers everywhere, a sample of each with 32-p. Skin Book will be sent free upon request. Address post-card: "Cuticura, Dept. T, Boston."

One of the busy industries at this time of year is the cider business of A. H. Graves, who makes a specialty of evaporated cider and apple jelly. The apples are drawn upon the upper floor of the building, from whence they drop through a steel drum to a large vat, thence through the press and the pipes to a room still lower, where the boiling takes place, there being an output of from 50 to 75 gallons a day. The evaporated cider is bottled in an attractive package, labelled and packed for shipment, being placed on the market at once. Later, apple jelly is made. Mr. Graves also has a good local trade in vinegar. The product of his factory goes into the stores of all the nearby cities as well as Rutland and Plattsburgh. This year Mr. Graves is aided assisted by his son, Eric Graves, who graduated last spring from the state agricultural school at Randolph.
